(54) Title: AIR FILTRATION DEVICE

(57) Abstract: The present invention provides an air filtration cartridge (1) suitable for use in the treatment of air in a forced airflow air supply system. The cartridge (1) comprises an inner casing (2) having an upstream stage (3) defining a chamber (4) having an inlet (5) for receiving a forced airflow (6). The chamber (4) has an outlet (7) which leads into a downstream stage (8) comprising a filter holder and mounting a high airflow electrostatic filter. Inside the chamber (4) is a low power coronal discharge ozone generator device (10).
